Caber Byte technologies is a full-service partner serving the publishing and localization industry with a focus on assured quality, trusted delivery, and constant innovation backed by relevant automation and business intelligence.

Why Us

We focus on error free editing, great design, faster review cycles, shorter production times, higher efficiency and most importantly, happy clients.

Localization & DTP

Caber Byte offers enhanced Localization and DTP services for agencies and corporations across the globe. With clear review of the scope and perfect understanding of the requirements, Caber Byte was able to deliver high quality content or product or application adaptable to a specific locale or target market, on time, still at an affordable cost. Specialised in grasping the needs of the particular product or the content and its target audience, Caber Byte ensures that the content is adapted to convey the exact or similar meaning to the target audience, in relevance to their culture and other attributes like the geography, language, ethnic and cultural preferences, habits, rules and regulations etc.

Caber Byte provides the following Localization processes

- Content Localization
- Graphics/Artwork Localization
- Website Localization
- eLearning
- Multimedia Content
- Sub-titling

Quality Assurance

Caber Byte believes in the motto “Quality is an essence” and involves itself in ensuring high quality deliverable. The performance of the team is reviewed periodically and meticulous training is imparted to make the team vigilant. With QC & QA Specialists, the review and validation of all deliverables, whether print or online is performed at all stages and outputs are cleared for delivery, only if they pass through the appropriate checks. Caber Byte insists on performing stringent and comprehensive quality assurance procedures, which are well documented to ensure perfect quality of output. Our quality metrics are on par with ISO standards

Expertise

The well-trained team at Caber Byte has handled voluminous projects of different complexities, in Layout/DTP applications mentioned below

Languages We Deal

DTP

Predominantly being a content and design company and having worked with several publishers and advertisement agencies, Caber Byte has a team of specialised experts, in-house to handle DTP projects. Desktop Publishing (DTP) specialists at Caber Byte possess hands on experience in handling works like creating, modifying, enhancing and optimizing your document(s) for online and print publication needs. With the ability to create templates and layouts that capture and replicate the design/image which would exactly portray the values of your brand, Caber Byte helps you in meeting the length and the needs of your target audience. Our project managers work closely with our clients to understand their requirements and provide customized DTP services and improve the quality of the files.

The gamut of DTP services includes

- ❖ Source Creation
- ❖ File Preparation & conversion
- ❖ Typesetting/Formatting/Page Layout
- ❖ Image creation, correction & manipulation
- ❖ Layout Consistency check and maintenance
- ❖ Content Check/Proof reading (PFC)
- ❖ Font Correction & management
- ❖ Handle works in HTML, SGML, XML and from other online documentation formats
- ❖ Multi-format output creation
